As you are still interested in the School, no matter under what name it runs, you will want to hear about the closing festivities. Graduation at the University is rather different from graduation as it was at M.E.S. No invitations to send out - staff and students alike have to call at the Registrar's office for cards of admission, and when the great day arrives, join the long queue of eager friends and relatives who wait to pass through the stately portals of Convocation Hall to see the august proceedings. No diplomas to get ready on time - they are mailed to the candidates. This year, no demonstration. Yes, it was quite different and very much easier for us, although there must have been lots of work for someone. There were festivities of course, some for the whole college, some just for our own School. For us they began with a tea given by the Alumnae Association of the Physical Education Diploma Course of the University in honour of the graduating class. This was held on Saturday, May 29th, at the University Women's Club and was very pleasant. President and Mrs. Cody were there and Dr. Ryerson, as well as Miss Coventry of the former Diploma Course, Miss Somers and Miss Jackson.

Next came high tea in the garden of Zoe Christie, one of the graduating class, on Wednesday, the second of June. It was a perfect day and the girls spent the afternoon taking pictures, chiefly of one another in dance positions. Miss Forster took some on her movie camera and with those she took at Convocation she hopes to have a film of the first graduating class of the new school. Think how interesting that will be "Forty Years On!"

June 3rd, the day of our Convocation, was beautiful but warm. In addition to the honorary degrees and the degrees in the School of Graduate Studies, ten other courses had their convocation with ours - Applied Science, Architecture, Commerce, Household Science, Pedagogy, Library Science, Forestry, Music, Law and Pharmacy. One by one the graduating students walked up on the platform and knelt before Sir William Mulock, the Chancellor of the University. We hope the graduates in Physical and Health Education will be as smart when they reach their 100th year! Sir William took the hands of each graduate in his and, in Latin, admitted each one to the degree. There must have been nearly 150 altogether and it was very hot. We had sixteen girls and one man get their B.P.H.E. degrees and the lone man got a great ovation. A real link with the old School, The Margaret Eaton School of Literature and Expression, was provided when the two medals, given by the T. Eaton Company, were presented. The Margaret Eaton Gold Medal was presented by Mrs. C.E. Burden, Mrs. Eaton's daughter, and the Emma Scott Nasmith Gold Medal by Dorothy Scott Raff Pennell, Mrs. Nasmith's daughter. These medals were given for highest ranking in the third year with proficiency in Literature and Expression and were awarded to Zoe Christie and Patricia Austin. After graduation there were garden parties on the lawn, one in the quadrangle of Whitney Hall, the University College Women's Residence and one in the quadrangle of University College.

That night there was the Graduating Class Banquet, held at the Granite Club in the room now familiar to many of us through numerous Alumnae Luncheons held there. The tables were made very pretty by the bouquets of the graduates. Two particularly lovely ones were of dark red carnations and white ones with the blue of cornflowers to make the School colours - maroon, blue and white. There were fifteen members of the staff including their wives, and sixteen members of the class, and the one man graduate was the toast master. Mary Sinclair, the missing graduate, joined the

Wrens shortly after she finished her examinations and could not be there. President Cody replied to the toast to the University, Dr. Ryerson to the one to the School, and Miss Forster and Mr. McCutcheon of the men's physical education staff to the toast to the staff. These toasts were proposed by Zoe Christie, Ruth Carleton and Eleanor Richardson respectively and all were of a high order. Eleanor Richardson caused considerable merriment by giving suitable(?) presents to different members of the staff. For instance Dr. Cates of the Anatomy Department who is evidently short staffed, was given a Red Cross nurse about 6 inches high to help him, Dr. Haist of Applied Physiology whose stomach pump they did not like, was given a tire pump as being more useful! All these names will be new to most of you, but one old friend of Anatomy days was there in the person of Dr. Harold deW. Ball. The toast to the graduating class was proposed by Dr. Cates and was replied to by Pat Austin. In spite of the large proportion of staff members present, there was a pleasant spirit of informality throughout the banquet. To relieve your minds, perhaps we should tell you that the staff paid for their own dinners, an arrangement made at the request of the staff.

The next evening, following the Arts Convocation in the afternoon, the Graduates Ball was held at Hart House, a gala occasion. Thus there went out into the "cold, cold world", sixteen women and one man, pioneers in the field of "Physical and Health Education."

The Annual Margaret Eaton Alumnae Luncheon which is usually given in honour of the graduating class, was held this year at the Granite Club on the first Saturday in May as the annual get-together of the Toronto graduates, with out-of-town graduates who happen to be in the city more than welcome. It was one of the nicest luncheons that has been held since 1926. The weather man smiled on us and gave us a comparatively warm and comparatively sunny day, both rather rare at that time this year. Graduates came who had not been at the Alumnae luncheon for years, perhaps not since their graduation. Fifty-one there were in all, including five honorary members. We missed Mrs. Burden and Miss Thrall who usually give us the support and pleasure of their presence, and many other familiar faces. The guests were received by Miss Hamilton, Miss Somers, the President Lois Russell Heaton and Dorothy Kennedy Conacher, and a pleasant time was spent in "catching up" on the news of class and school mates until lunch was announced. A feature of the programme was the talk by Dorothy Jackson, who took us with her in retrospect through the Canadian West as she and Miss Zerada Slack of the National Council Y.W.C.A. visited the various Y.W.C.A.'s and held refresher courses. All along the way Dot saw M.E.S. graduates and we all got a great thrill as she gave us news of them. Shirley Naylor McCatty presented a report of the Alumnae's war work and made an appeal for more pledges of weekly, monthly or yearly gifts in money. She also brought to the attention of the members the fact that if all the 450 odd graduates paid their membership fee of \$1.00 each year, we would have sufficient to carry on our war work without stopping to raise money. "A word to the wise!" The only toast this year, other than the one to the King, was the toast to the ship the Alumnae has adopted, travelling in official circles under a number only but nicknamed by the Alumnae, "the Maggie E.". This was proposed by Helen Parsons in a very telling speech that gave a history of how we came to be, as Helen said, "foster parents of a motor launch". There is a crew of 17 on the ship and Helen reported that the Alumnae has already sent them a library of 36 books and a box containing a knitted article for each one. As the boys seemed anxious to write, it was suggested that each member of the crew might be given to one member of the Alumnae who would write to him regularly. Volunteer letter-writers were called for and 17 were secured. Three cheers and a tiger for the President, Lois Heaton, brought this most enjoyable function to a close. - By the way, Helen Parsons is again giving out Ditty Bags for the Navy League. Phone the School if you want one, Ad, 8339.

The following paragraphs are taken from letters and from the report of Miss Zerada Slack and Miss Dorothy Jackson on their teaching tour through the Canadian West. As most of you know, they held three-day refresher courses in six centres,--Winnipeg, Regina, Calgary, Edmonton, Vancouver and Victoria. This series of courses provided an opportunity for getting new material, new ideas and new inspiration that does not often come to one's door for the taking, and many availed themselves of this chance to improve professionally.

"From every point of view the trip was completely successful. In fact, the whole project assumed proportions that were amazing to all of us. In the six centres, we taught over 500 men and women. In three centres classes were over one hundred, the other three classes had from 50 to 100 members. As a result of broadcasts in Winnipeg, Calgary and Saskatoon, many enquiries came in by mail.

Attendance in the classes included: Y.W.C.A. and Y.M.C.A. secretaries, playground supervisors, Army and Air Force officers (both men and women), public school teachers, high school and normal school teachers and students, university staff and students, Girl Guide and C.G.I.T. leaders, industrial representatives. The activities taught, in the order of popularity, were as follows: Recreational dancing, counteracting fatigue, limbering and relaxing exercises, rhymes and rhythms, social games, folk dancing, team games.

Apparently recreational dancing being a new field and having original material, had an unusual appeal for everyone. "Counteracting Fatigue" was a timely subject and combined both theory and practical work. The advantage of this subject lay in the fact, that depending upon the group, it was made entirely a lecture period or partially practical work. The limbering and relaxing exercises gave the teachers new ideas for adult groups. Some difficulty was experienced here with inadequate pianists, as the music was exclusively classical. It was interesting to note that where experience in Physical Education was limited, all the games and the easy folk dances were relatively high in popularity. In Winnipeg and Vancouver the gymnastics and more difficult dances were more readily acceptable. As usual, material for primary grades was greatly in demand.

In our opinion the most valuable professional contacts made were, in the first place with the Normal School Teachers. In every case, they were active on the Committees which organized the Course in each centre. Secondly, the meetings we had in Vancouver were valuable. These included the British Columbia Physical Education Association, the McGill School of Physical Education graduates, and a luncheon with the University of British Columbia students arranged by Gertrude Moore. Miss Moore also arranged an interview with President Klink of University of British Columbia and the Physical Education staff. Here and in other centres, Miss Jackson met with the Margaret Eaton School graduates. A number of interesting interviews were held with Playground supervisors, Guide officers and Supervisors of Physical Education in the various cities. Other opportunities included a conference with the Minister of Labour for British Columbia, visits to the shipyards at Esquimalt, visits to the Hostess Houses, Leave Centres and Canteens under the direction of the Y.W.C.A. War Services, and an evening rehearsal of the Pro-Rec display under the direction of Mrs. Keatley. Speaking engagements included the Women's Canadian Club, and the Boards and Committees of the Y.W.C.A. in all centres."

Interesting side lights--'The High Schools in Calgary each voted the best student and paid her fees to take the course'... 'The "Y" Guild at Moose Jaw, a unique group of young married women--they have fun together and incidentally back the Physical Education department--raised money for new lockers, hair-dryers revamped, and re-doing of gym. floor, etc.'

## NEWS NOTES:

Miss Somers was in Ottawa on April 9th, to attend the Recreation Conference called by the Department of Labour.

It was interesting to hear of most of the western girls through Dorothy Jackson, after her trip west in the spring. M.E.S. dinner in Winnipeg; Mary Adams and her boys in Brandon; Pauline Seller full of pep and very popular in Regina, Jean Mooney chairman of the opening meeting of the Health Week there; Mary Leask McIntyre, her two children and the "Y" Guild, Gwyn Thompson with her equipment in perfect order in Moose Jaw; dinner with Cecily Baalim Mitchell in Calgary; Cecilie Swanson ski-ing down the mountainside in Banff; Gertrude Moore and all the "gang" in Vancouver; Phoebe Hamilton and Bette Marshall in Victoria with Bette's demonstration a huge success; on the way back Edmonton and Ruth Corner, Kay Mitchell, Mary Sovereign Barnes and Rhoda Wood; and Saskatoon, but not an M.E.S. graduate in the place.

Friends of Mrs. R.M. Stoddart (Mary Irene Thomson) formerly of our staff, will be interested to hear that she has a son, Robert Thomson, born in Toronto on May 13th. Mr. Stoddart has been transferred to Montreal and Mrs. Stoddart and the baby will join him in about a month.

We were fortunate enough to have some of the letters telling of Graduates Day in different places, given to us for the News Letter. We are passing on to you some of the news they contain. Some items we must keep for our next letter due to lack of space.

Elva Creelman Jewitt reported for the group in Halifax and near-by places. She says, "We had a very nice evening at my home and each one knew at least one other so we all chatted about our doings and I tried to take notes as they talked. After refreshments we broke up hoping to see each other soon again."

Margaret Large, Windsor, Ontario, writes: We had our luncheon and it was grand fun. The night before, a friend and I made silly little place cards which had little sketches on them portraying something of the person's life. They were supposed to find their seats by recognizing the "facts" of their lives...It gave the gathering a start conversationally, as many of us were strangers to each other. The original three were present, Jess Loaring Edmonson, Mrs. Milner (Louise Gilchrist) and me. Thinking we were such a small group for such a great occasion, we asked the P.E. instructresses of the secondary schools to join us--Barb Govan, Hilda Layman, Glad Wagg, Betty Briscoe, Florence Allen--Glad Munning was unable to attend. Mrs. Kae Marsh McFadden is now living in Windsor at the Duke of York Apts. #32, so she was with us too....Thank you so much for letting us know about Alumnae Day. We were thrilled to share in it."

Elinor Wallace Souchuk wrote: "Marjorie Fraser Armitage, Phyl Dean Knighr and myself had a reunion in the form of dinner at the hotel and a good old chat afterwards at Marj.'s on May 1st. M.E.S. vied with their two children for predominance in the conversation."

Vera Williams Millar wrote of the luncheon meeting Lois Creighton, Jean Morrison Burton and Vera had at the Charlottetown Hotel. "The fact that we were all perfect strangers and myself a very old graduate, didn't seem to dampen the enthusiasm for discussion and reminiscence; must have been the influence of "the old school pins!"

The boys love it and are always asking to be taken for a ride!" and she ends, "Remember me to my M.E.S. and Tanamakoon friends."

Margaret was not very explicit in her information but we do know that the twins are quite recent arrivals.

Frances Caisley who teaches in Baltimore, Maryland, writes that the children at school who come unprepared for activities, knit 4 inch squares. For some months now, I have been learning shorthand and I will be sitting for an examination at 70 or 80 words minimum in June...I hope to visit Canada again some day, but at present no one

has very fixed plans...We have really been affected very little by the war and can, I think, consider ourselves lucky. Our petrol is rationed and also certain foodstuffs, and prices have all gone up of course, but so far really essential items have been obtainable. With the rationing of petrol, bicycles have become very popular. I must say that I enjoy riding."
